

EEG laboratory: LSB 01.113

When you come from Chancellors Drive, the **LSB** (Lawrence Stenhouse Building) is labelled number **9** on the map (**orange** arrow).

Please use the entrance the **yellow** arrow is pointing to (you get to this via a set of outside steps or by crossing a little bridge). The EEG laboratory is the first room on the right.

If anything is unclear, feel free to contact the researcher.
